PROGRAM OVERVIEW

Welcome to the 40 Day Buns & Guns Challenge!

You know why we're here – to work on building those arms and glutes!

Bringing up those those two high-profile areas will be our main focus for the next 40 days, of course ... but there's a lot more I hope you take away from this Challenge.

Like losing body fat, changing your body composition, getting stronger and – most importantly – developing habits that are going to help you lead a fitter, healthier lifestyle long after these 40 days are over!

Helping people reach their goals is one of my favorite things in the world. I also think I'm pretty good at it, so I'm confident I can help you reach yours if you commit to putting in the work.

So what do say ... are you ready to DO THIS DARN THING OR WHAT?

Start off by clicking the PLAY button below to watch a video from me on how to get the most out of this program.

WATCH THE VIDEO!

ABOUT THE PROGRAM

You'll find everything you need in this eBook, but there are also some bonus videos for the Training, Nutrition and Mobility sections, so make sure to check out those pages too!

(Don't worry, there are links to those videos that can be easily accessed via the eBook.)

You will have two sets of workouts during this program, one for Weeks 1-3 and another for Weeks 4-6.

The nutrition plan will stay the same, but as you'll see there are a ton of options for each meal with the food exchange lists provided. You will be lifting weights five times a week and doing cardio four during both phases of this plan.

The workouts and nutrition plans are designed to work together to prioritize the body parts we are primarily focusing on - arms and glutes.

We'll do this by training each of those muscle group twice a week, and by planning your high carb days around those workouts (more on that in the Training and Nutrition sections).

There's also an all-new feature for this Challenge – an *Accountability Tracker*! This is the first time I am including this in one of my programs.

It's totally optional – you don't have to use it in order to follow the program or to win any of the prizes – and it is for your eyes only.

But if you feel like it will be helpful, to see where you can improve over these next 40 days, it is just another way to hold yourself accountable.

You can read all about the Accountability Tracker on pages 106-114, and watch my video explaining how to use it [here](#).

UPLOADING YOUR PHOTOS & MEASUREMENTS

You have until Wednesday, March 30 to upload your photos and measurements.

You don't *have* to upload photos to follow the program and see great results – not everyone does. But you won't be eligible to win any of the post-Challenge prizes if you don't, so I hope you do!

Even if you aren't going to submit this information, I recommend you take Before and After photos and write down your measurements before you start this program. This will help keep you accountable to yourself, and it's good to have a point of reference to look back on when you finish the Challenge to see how far you've come.

Click the link below for a refresher and some videos on the best ways to take your photos and measurements, and to get the hashtag to hold up in your Before photos if you plan on submitting them.

YOUR TRAINERS ON THE FORUMS

Your NW Fitness Team Trainers throughout the Challenge are me (of course!), Maureen and Naomi.

We will be on the forums every day during the Challenge answering questions and offering as much support as we can.

The forums are also a place where you can meet and chat with other people who are going through exactly what you are. It's a great place to learn from, support and motivate each other, so please take advantage of it.

WEEKLY PRIZE GIVEAWAYS

We will give away weekly prizes to those of you who are posting about your Challenge experiences every week.

These posts can be anything that shows how hard you are working, how much fun you are having, what you're eating ... or anything else you can think of that relates to your journey!

I'll find your posts by searching these hashtags on Instagram and Facebook, and I will pick three "prize winners" each week.

So please make sure your profile is public so I can see you, and make sure you are using these hashtags so I can find you:

40 DAY BUNS & GUNS CHALLENGE

TRAINING

Time to roll up your sleeves, pop on those headphones and get after it!

These workouts are going to be challenging (that's the point of a Challenge, right?) but FUN. So hopefully you're not afraid of some good, old fashioned hard work.

The program is split up into two training blocks:

» WEEKS 1-3 - TRAINING BLOCK 1

» WEEKS 4-6 - TRAINING BLOCK 2

You will be training arms and lower body twice a week during both Training Blocks, so the areas we are targeting for these 40 days are going to get plenty of work, while still giving your body ample time to recover.

Each Training Block has three workout plans, so you can follow along from anywhere depending on the variety of equipment you are working with.

The exercises for each workout differ slightly from plan to plan, but almost everything else will stay the same. You will follow the same training split, work the same muscle groups and use the same intensity techniques regardless of which plan you follow (with a few exceptions with the Dumbbell/Bodyweight option).

Which means it's totally fine for you to split your time between training at home and at the gym, and you won't need to worry about missing a workout if you're on the road for a few days with access to limited equipment.

GYM WORKOUTS

For those who have access to a gym.

AT-HOME WORKOUTS (FULL EQUIPMENT)

For those who have a variety of equipment at home.

AT-HOME WORKOUTS (DUMBBELL/ BODYWEIGHT)

For those with limited equipment.

TRAINING SPLIT BLOCK 1: WEEKS 1-3

DAY 1: MONDAY – SHOULDERS/
ARMS/ABS
DAY 2: TUESDAY – LOWER BODY
DAY 3: WEDNESDAY – BACK/CHEST
DAY 4: THURSDAY – OFF
DAY 5: FRIDAY – ARMS/ABS
DAY 6: SATURDAY – GLUTES/
HAMSTRINGS
DAY 7: SUNDAY – OFF

TRAINING SPLIT BLOCK 2: WEEKS 4-6

DAY 1: MONDAY – SHOULDERS/
CHEST/TRICEPS
DAY 2: TUESDAY – LOWER BODY
DAY 3: WEDNESDAY – BACK/BICEPS
REAR DELTS
DAY 4: THURSDAY – OFF
DAY 5: FRIDAY – ARMS/ABS
DAY 6: SATURDAY – GLUTES/
HAMSTRINGS
DAY 7: SUNDAY – OFF

CHALLENGE YOURSELF DURING THE CHALLENGE!

If you want to make noticeable changes, you can't just go through the motions in the gym – you have to *challenge* yourself. So make sure you are getting enough sleep (7-9 hours a night), staying hydrated and warming up properly so you can get the most out of each workout!

Your goal is to lift as heavy as possible each and every workout while still using proper form, of course (excluding your warmup sets).

Since I'm not in there watching you train, I can't tell you the weight you should be using. Only you know what constitutes heavy for *you*.

What I can tell you is that you should be struggling on the last 2-3 repetitions of each set. I would rather you fail and fall a rep or two short than to be able to perform too many reps on any of your working sets.

If you can do 12 or 13 reps without struggling when you should be doing 10, then you aren't lifting heavy enough and you should increase the amount of weight you are

using. If you're not sure how much you should be using, increase the weight you're using it by small increments at first until you know what you are capable of handling.

If you find that the first or second set was too easy, don't be afraid to add another set until you get the hang of it.

If you're challenging yourself, you should be getting stronger each week, and you should be lifting heavier on almost all exercises by the end of these 40 days.

Remember to always focus on using proper form, on developing your mind-muscle connection and the stretch/squeeze of each exercise. Every exercise in the training charts links to a short video demonstration, so make sure to watch those so you are performing the exercises correctly!

INTENSITY TECHNIQUES DEFINED

You will be using a number of different training techniques in this program. These are designed to help you push past your limits by increasing the intensity of your workouts.

» **SUPERSETS** Two exercises performed back-to-back without resting between individual exercises. Rest when both exercises are completed.

» **TRISSETS** Three exercises performed in a row without resting between individual exercises. Rest when all three exercises are completed.

» **GIANT SET** Four or more exercises performed in a row without resting between individual exercises. Rest when all exercises in a Giant Set are completed.

» **AMRAP** As many reps as possible (or as many rounds, but in this case it's reps). Rep ranges for most bodyweight exercises call for this.

» **DROP SETS** Performing three or more sets back-to-back-to-back with no rest in between, lowering the weight by about 20% with each "drop". You will start with a heavy weight - one you can do for the prescribed number of reps - and reach failure with that weight. Once you do, you will "drop" (decrease) the amount of weight you are using and then immediately perform another set. Once you reach the prescribed amount of reps with that weight, you will "drop" the weight one more time and perform one more set with that lighter weight.

» **FST-7 (FASCIA-STRETCH TRAINING)** Designed to stretch the fascia (the muscle's connective tissue) and fill your muscles with blood (the pump), FST-7 calls for performing seven sets of an exercise with little rest (30 seconds) between sets. Stay with the same weight throughout – a weight you can lift for 10-12 reps for every set – or increase it.

BOOST THE INTENSITY

Here are a few other ways to increase the intensity of your workouts:

- Adjust the amount of weight you are using. Heavier weight = more intensity
- Adjust the time you rest between sets. Shorter rest = more intensity
- Slow down your repetitions and focus on stretching and squeezing the muscle
- When you feel like you can't do any more, dig deep and do 1 or 2 more!
- Drink more water! Water helps circulation, which will get more blood to the muscle you are working and help you get a better "pump"

TRAINING TIPS

» Warm up properly! Make sure to follow the warmup protocols listed before your workouts (follow these whether you're training at the gym or at home). Also make sure to add in a couple warmup sets on your first two exercises of each workout – or more if you feel you need it. You should not be struggling at all on these warmup sets, just stretching, squeezing and flexing the muscle.

» Use proper form. Form is key to working the muscle you are targeting and staying injury-free.

» Perform slow and controlled repetitions for all exercises – excluding any plyometric (example: Jump Squats) or dynamic exercises (example: Dumbbell Thrusters).

» Pay attention to your rest periods at the top of each workout chart. You are allotted longer rest periods for some low-rep compound exercises like squats so you can really challenge yourself. You won't fully recover between sets, but you will be able to lift heavier with the extra rest on those exercises.

» There are video demonstrations for every exercise in this program. Just click the name of the exercise or the "PLAY" button next to the exercise name to view the demonstration.

WARMUP ROUTINES

Incorporate these two dynamic warmup routines before every workout, they are a great primer to get your body ready to attack the weights!

Use the **UPPER BODY WARMUP** routine on upper body days and the **LOWER BODY WARMUP** Routine on lower body days.

If you feel like you need to do more to get your body ready, feel free to add extra warmup sets here, or on your first exercise of the day. Our goal is to stay healthy throughout these 40 days.

CARDIO

Let's get that body moving and burn off some fat!

Here's the good news – none of the cardio workouts in this program will last longer than 30 minutes, which means you don't have to spend hours each day stressing out over everything else you have to do.

But cardio is essential if you are looking to reduce body fat, so you will have to do some in order to reach those goals.

The two types of cardio you'll perform during this challenge are HIIT cardio and Interval cardio. Be sure to wear a heart rate monitor to make sure you are challenging yourself during these sessions – don't just go through the motions!

Your target heart rate for each type of cardio is called out below.

»»**HIIT Cardio** Short bursts of intense cardio followed by a less intense – or complete rest -recovery period.

Target HR: 170-190 beats per minute (bpm) during your intensity phases.

»»**Interval Cardio** Moderate-to-high intensity cardio intervals, with the high intensity level less extreme than when performing HIIT cardio. You will mix in this type of cardio with your HIIT workouts during Phase 2.

Target HR: 140-150 beats per minute.

CARDIO GUIDELINES

- Be sure to wear a heart rate monitor to make sure you are challenging yourself during your cardio sessions. Don't just go through the motions and expect to see results!
- If you decide to perform your cardio on weekends, just remember to take one complete off day every week during this program to allow your body to fully recover.
- Feel free to get creative with your cardio as long as you are following the guidelines listed above.

CARDIO SCHEDULE

DAY 1: MONDAY HIIT

DAY 2: TUESDAY OFF

DAY 3: WEDNESDAY INTERVAL

DAY 4: THURSDAY HIIT

DAY 5: FRIDAY INTERVAL

DAY 6: SATURDAY OFF

DAY 7: SUNDAY OFF

For an overview of your cardio, check out the **Weekly Calendar** here.

MOBILITY

Mobility and recovery are such important parts of keeping your body healthy and injury-free.

Even little nagging injuries that you probably feel you can train through can turn into bigger ones – ones that may eventually force you to take a few days, or even weeks – away from the gym. Which means all of your hard work comes to a screeching halt.

And we don't want that to happen to you, right?

In order to get the most out of these workouts, your body has to be able to move properly - to reduce the risk of injury, to increase your range of motion and to keep your body progressing and improving.

The harder you train and older you get, the more important this becomes. But this isn't just for older people, and it isn't just for people who have pre-existing injuries.

I recruited some expert instruction for this series by enlisting the help of my chiropractor, Dr. Nate Horst. Dr. Horst has helped me stay healthy and (relatively) injury-free over the years, and I know these videos will help you do the same.

These videos break down the most important areas to focus on and the tools to use to keep you primed and ready to be *your* best.

It's time to eat!

Or, more accurately, to see what's on the menu for the next 40 days!

I hope the main thing you feel going into this Challenge is excitement – because you should be excited! – and that you aren't dreading having to follow a structured meal plan.

I've done my best to incorporate as many tasty foods as possible, along with providing a Food Exchange List that makes it super-easy to make substitutions if there is something on the menu that you don't like. So you don't have to eat the same foods meal after meal, day after day, in order to reach your goals.

More on that below.

But, before we get into that, let me stress one *extremely crucial aspect of this Challenge*:

Following your meal plan is the most important part of this program and will be the #1 factor in determining whether or not you reach your goals over these next 40 days.

If you're a repeat Challenger, you've heard me say this before – many, many times.

But, sometimes it's easier to hear it from someone just like you, who's been there and done that. Someone like 2019 Buns & Guns Challenge winner Jeff Richards.

Jeff hit rock bottom before he entered that Challenge. But he dedicated himself to following the program and especially to following his meal plan.

And by the time the Challenge was over, he had lost 20 pounds and 13 total inches!

HIGH-LOW LET'S GO

This program is designed to help you lose body fat while *maintaining* muscle, and even *build* in two key areas - arms and glutes.

Gaining muscle while in a caloric deficit is hard – but we are going to do it by incorporating a form of *carb cycling*.

The amount of carbs you eat will increase on two days each week. **These days are strategically placed either before or on one of your lower body and one of your arm-focused workouts every week**, depending on which phase we are in. This will give you the extra energy to challenge yourself during these workouts, lift as heavy as possible and push those extra carbs into your muscles to help them grow.

The lower-carb days will help you chip away body fat, while the higher-carb days will serve as your “refueling” days. These high carb days are placed 2-3 days apart to keep your body in that constant chipping/building mode throughout the 40 days.

These higher days will serve as your *refueling* days.

They will give you the extra energy to challenge yourself during your workouts, lift as heavy as possible and push those extra carbs into your muscles to help them grow.

See the chart for a breakdown of your low and high-carb days:

DAILY MEAL PLAN CARB BREAKDOWN

DAY 1: MONDAY – HIGH CARB
 DAY 2: TUESDAY – LOW CARB
 DAY 3: WEDNESDAY – LOW CARB
 DAY 4: THURSDAY – LOW CARB
 DAY 5: FRIDAY – HIGH CARB
 DAY 6: SATURDAY – LOW CARB
 DAY 7: SUNDAY – LOW CARB

ABOUT THE MEAL PLANS

The meal plans for this program are split up into height and weight ranges - three height/weight ranges for women, and two for men.

If you are unsure of which plan to follow, always follow the meal plan that corresponds with your height.

Each height/weight range has two types of meal plans - one for your High days, and one for Low days.

As I mentioned above, the great thing about the way these meal plans are designed is the number of options you have for each meal by utilizing the Food Exchange List! It's super-easy to use and gives you a ton of choices for each meal, which means you won't have to eat the same thing day after day in order to see results.

Foods for each meal are categorized into these different food types.

FOOD TYPE REGULAR MEAL PLAN

(LP) – Lean Protein
(FP) – Fatty Protein
(SC) – Starchy Carbohydrate
(F) – Fat
(V) – Vegetable
(D) – Dairy
(FR) – Fruit
(OC) – Optional Condiment

FOOD TYPE VEGAN MEAL PLAN

(P) – Protein
(PC) – Protein/Carbs
(ND) – Non Dairy
(SC) – Starchy Carbohydrate
(FR) – Fruit
(V) – Vegetable
(F) – Fat

If you don't like something on the plan, or if you're tired of it and want to make a substitution, all you have to do is refer to the food exchange list and substitute something from that same category in its place. That way if you want to exchange a Lean protein (LP) for another Lean Protein, all you need to do is check out the food exchange list and pick another option from that category.

Each item listed on the Food Exchange List is one full serving. So if your plan calls for 1/2 of a LP, you will use half of the amount listed on the Exchange List. Conversely, if your plan calls for two servings of a LP, you would just double whatever the amount is that is listed (4 oz to 8 oz). List! It's super-easy to use and gives you a ton of choices for each meal, which means you won't have to eat the same thing day after day in order to see results.

PREPARATION IS KEY

The first step to being successful with any type of nutrition plan is to be prepared.

A lack of preparation is one of the main reasons I see most meal plans fail. When it's time to eat and you're hungry but you don't have any "clean" food prepared - that's when you reach for whatever is convenient to satisfy your hunger.

And most of the time what is convenient isn't going to help you reach your goals.

If you have never meal prepped before, there are videos showing how I do in the Nutrition section of the 40 Day Buns & Guns Challenge homepage. These videos were shot as I was preparing for the Figure Olympia, so I was preparing my meals for over a week here. If you follow the grocery list for this program, you will be preparing your food 3-4 days in advance.

WEIGH YOUR FOOD

Another extremely important part of getting in shape and transforming your body is weighing your food.

Every little thing adds up, and if you are not weighing each meal, you could be eating a few hundred extra calories per day without even knowing it.

As a general rule, measure all meat, potatoes, rice and pasta (whole wheat, of course) cooked. Measure oatmeal dry.

HERE'S AN OVERVIEW OF THE NUTRITION SECTIONS IN THIS eBook.

DAILY MEAL PLAN

There are five versions of the same meal plan, taking height and weight ranges into consideration: 3 for women and 2 for men. ***If you're not sure which meal plan you fall under, choose the meal plan based on your height.***

GROCERY LIST

Your shopping list that will be enough to prepare four days of meals in advance. Make sure to look at your meal plan and decide what you are eating before you go shopping! ***You do not want to buy all foods on the grocery list, the amounts listed are only if you plan on eating a particular meal for four days.***

DOs & DON'Ts

- » **DO**
Buy a digital food scale.
Do not eyeball your portions!
- » **DO**
Be prepared! Cook your meals in advance for at least 3-4 days worth of meals at a time.
- » **DON'T**
Overdo it with condiments.
Calories adds up!

SUPPLEMENTS

The right supplements can help you build muscle faster, burn fat more efficiently, increase energy levels, boost strength and speed up the recovery process to help keep you in the gym and functioning at maximum capacity.

BROCCOLI AND CHEESE STUFFED CHICKEN BREAST

SERVINGS: 4

INGREDIENTS CHICKEN

- 1.5 lbs boneless, skinless chicken breasts (about 6 small/medium chicken breasts)
- 1 tbsp garlic powder
- 1 tsp chili powder
- 1 tsp dried thyme
- ¼ tsp red pepper flakes
- ½ tsp salt
- ½ tsp ground pepper
- 1 tbsp olive oil

DIRECTIONS

- Preheat the oven to 375F.
- Add the garlic powder, chili powder, dried thyme, red pepper flakes, salt, and pepper to a small bowl. Mix and set aside.
- Place the chicken breasts on a cutting board, drizzle with the olive oil.
- Cut the chicken in half lengthwise with a sharp knife leaving the chicken breast connected, but creating a flap.
- Sprinkle the spice mix over the chicken breast on both sides and inside the flap.
- In a large bowl mix the cheddar cheese, Greek yogurt, cream cheese, and minced garlic until combined.
- Add the diced broccoli to the Greek yogurt mixture and mix everything together until the broccoli is coated.
- Divide the broccoli mixture into four servings.
- Stuff a chicken breast with 1/6 of the broccoli mixture.
- Secure the broccoli cheese filling by closing the flap and securing both edges of the chicken breast with 2-3 toothpicks or more until it holds together. Repeat with each chicken breast.
- Place the chicken breasts in a 9x13 baking dish.
- Bake, uncovered for 25-30 minutes or until chicken is cooked through.

ACCOUNTABILITY TRACKER

ACCOUNTABILITY TRACKER

Here's an all-new bonus section for this Challenge – an Accountability Tracker!

This is the first time I am including this in one of my programs and my hope is that it helps you stay on track just a little bit more ... or helps you realize exactly when and where you fell off track (if that happens, right?)

Please keep in mind – *this is totally optional to use.*

You don't need to use it to follow the program or to win any of the prizes, and it is for your eyes only.

But give it a shot if you feel like it will be helpful to review each day, and week, to see where you can improve over these next 40 days as another way to hold yourself accountable and stay on track towards reaching your goals.

HERE'S HOW IT WORKS

- » Each week of the Challenge is broken down into seven daily activities – Workout, Cardio, and each of your five meals of the day. **1**
- » Once you complete an activity, give yourself 1 “point” by writing 1 in the appropriate section. **2**
- » At the end of each day, add up your total “points” and write that number in the TOTAL PER DAY BOX. **3**
(Note: There is a maximum 7 points on most days. You do not award yourself “bonus points”).
- » At the end of each week, add up your daily totals and write them in the Weekly Totals box. Then turn to page XXX and add your total for that week. **4**
- » The maximum number of points for each week is 44 and is listed at the bottom of each page (Workouts – 5 points/week max, Cardio – 4 points/week max, Meals - 35 points/week max.). It is not possible to score more than 44 points in a week.
- » At the end of the Challenge, add up all of your weekly totals to see how you did and where you can improve!

SCORING RULES

- If you do not follow the meal plan (or hit your meal macros), your score for that Meal is 0.
- If you cheat or have something that is not on your meal plan that does not fit your macros, score yourself a 0 for **the most recent meal you have eaten**. So if you eat that something between Meal 1 and 2, your score for Meal 1 will be 0.
- If you skip a MEAL, your score for that meal is 0.
- If you skip a WORKOUT but make it up on a Saturday or Sunday, award yourself 1 point on the day you worked out (even if it puts you over the total points for that day).
- If you skip CARDIO but make it up on a Saturday or Sunday (or another day when it isn't listed), award yourself the 5 points on the day you performed cardio (even if it puts you over the total points for that day).
- There are no “bonus” points awarded for extra cardio sessions or workouts.
